

INVZI

9-In-1 100W GaN USB-C Charger & Hub

User Manual

Product Introduction

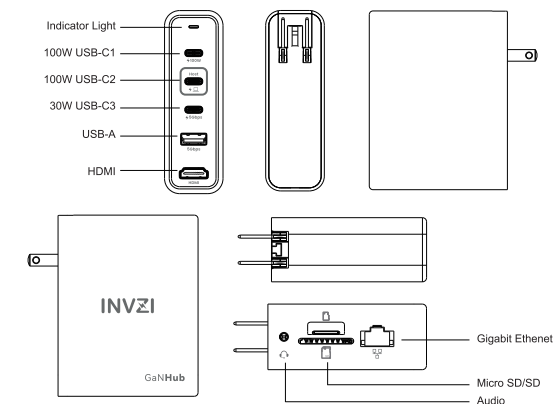

INVZI 9-In-1 Power Hub is the world's first 100W GaN USB-C charger and hub which combines updated Gallium Nitride (GaN) chip technology and USB-C hub functions.

It has 9 ports to connect laptop/ tablet/ phone with 100W Max PD charging, extend display with 4K@60Hz HDMI, internet cable with gigabits ethernet, flash drive, keyboards, SD/Micro SD cards, audio and other devices all at the same time.

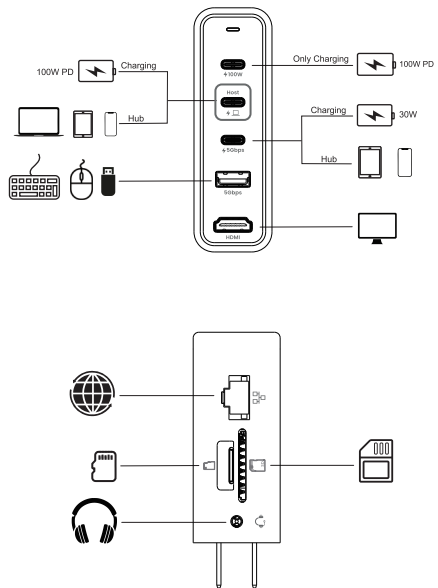

It has foldable US plug compatible with UK/EU/AU universal travel adapters and extension cable, so it can be used as wall charger and desktop charger. The multi-functional INVZI power hub is designed to be the perfect all-in-one solution for laptop, tablet and phone.

- USB-C3: 30W Max, USB-C 3.1 Gen1 5Gbps data transfer
- USB-A: 7.5W Max Hub, USB-A 3.1 Gen1 5Gbps data transfer
- HDMI: Up to 4K@60Hz, 1080p Full HD
- Ethernet: RJ45 1000Mbps
- Micro SD/SD: UHS-1 with speed up to 104MB/s Data Speed
- Audio & Mic: 3.5 Audio, 96KHz 24bit

Features

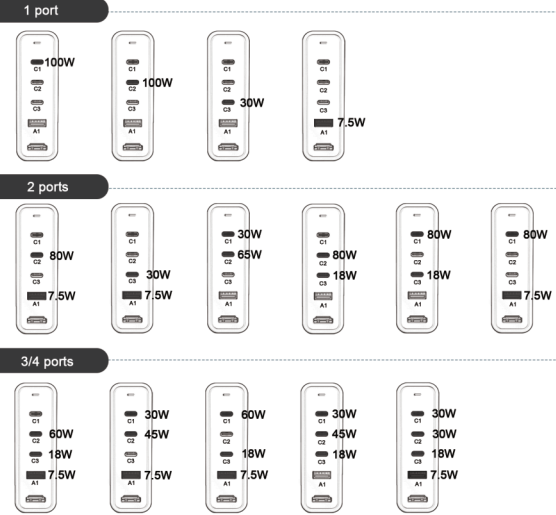

Features

Power Input: AC 100-240V, 50/60Hz, 2.4A
 Max Power Output: 100W
 Product Dimensions: 94x76x30mm/ 3.7"x2.99"x1.18"
 Product Weight: 210g/ 7.4oz/ 0.46lb

Note: Need to use USB-C 3.1 Gen2 100W/5Gbps or higher-level cable to connect USB-C2 to your device for both 100W charging and data transfer functions.

Power Allocation

Product Detail

To ensure the best user experience, please note the following points:

- USB-C1 Port supports Max 100W power delivery (PD) fast charging only without data transfer functions.
- USB-C2 port supports both Max 100W power delivery (PD) fast charging and USB-C 3.1 Gen1 5Gbps data transfer functions.
- USB-C2 port to your MacBook/ Laptop/ Tablet by using USB-C 3.1 Gen 2 USB-C to USB-C Cable or higher-level cable.
- Do not unplug the power delivery during use (doing so will lead to the ejection of the connected peripherals).
- How to use Audio Jack port: after connecting the audio jack port, please select the sound preference of your computer to make sure the sound and mic is working well.
- HDMI 4K@60Hz: must need USB-C 3.1 Gen2 cable or higher-level cable to connect the USB-C2 port on the INVZI power hub.

What's in the Box

- 1 X INVZI 9-in-1 USB-C Power Hub
- 1 X Set of Universal Adapters: UK/EU/AU
- 1 X Extension Cable Compatible with Adapters
- 1 X USB-C 3.1 Gen 2 Cable (Version 2 incl.)
- 1 X Travel Pouch
