

# Ksix Aura SmartLED ceiling light, 5 W built-in speaker, RGBIC+CCT, 49 cm diameter, 7.200 lm, 66 W, iLink app, White

## DESCRIPTION

Bring color to your music with the Ksix Aura SmartLED ceiling light. Thanks to its built-in speaker you can listen to your favorite music while illuminating your space. Create customized environments thanks to its RGBIC color technology and CCT white tones. In addition, with the iLink app you can enjoy the wide variety of features that it offers. Discover a new dimension of light and sounds with the Ksix Aura ceiling light.

### Bring color to the music

The Ksix Aura LED ceiling light features a 5 W speaker with a clear and surrounding sound. By linking it with your cell phone you can play your favorite music from apps like Spotify, Apple Music, YouTube, among others. In addition, thanks to the iLink app you can configure the ceiling light so that the lighting follows the rhythm of the music that is playing.

### Millions of vibrant RGBIC colors

Discover the RGBIC technology of the Aura ceiling light and fill your home with vivid and vibrant colors. Unlike RGB technology, RGBIC offers infinite combinations of colors. In addition, with its 7.200 modular lumens of power, you can illuminate your spaces with dazzling brightness and a wide range of colors.

### Customized white temperatures

Submerge yourself in the perfect atmosphere with the CCT white shades of the Aura ceiling light. From a warm 3.000K to a cool 6.500K, you can adjust the light to suit your tastes and needs. Plus, enjoy the brightness control functionality so you can adjust the lighting and create custom ambiances in seconds.

### Full control with your smartphone

With the iLink app, you will have total control of the ceiling light in your hands. Select colors, sync lighting and music, choose from a variety of scene modes, set timers and more. It incorporates Bluetooth 4.0, always ensuring a stable connection. In addition, it includes a remote control with which you can control the lighting of the ceiling light in a more analogue way when you do not have your phone at hand.

### Round easily integrable design

The Aura LED ceiling light has a minimalist round design of 49 centimeters in diameter and 7,5 centimeters thick. This makes it easy to integrate and adapt to any space and style. In addition, thanks to its weight of only 1.200 grams, it is very easy to install. It has an IP42 protection rating that makes it resistant to dust and water drops. It offers a lifespan of 30.000 hours, so it will be your light source for many years to come.
