

DESCRIPTION

The Ksix Boreal LED ceiling light will brighten your life with its RGBIC color technology and its CCT white shades. Control all its functionalities in seconds thanks to the iLink app. Don't settle for the ordinary, let yourself be carried away by the magic of the Ksix Boreal LED ceiling light's illumination!

Millions of simultaneous colors

The boreal uses RGBIC color lightning technology, which means it can dazzle you with millions of vivid and vibrant colors. Unlike the boring RGB, this ceiling light offers endless simultaneous color combinations. Its luminous flux of 5.600 modular lumens ensures dazzling light intensity and brightness.

From cool white to warm white

The Ksix Boreal LED ceiling light offers CCT white shades ranging from 3.000K to 6.500K, spanning from cool to warm light in less than a second. It also features brightness control, so you can adjust the light intensity according to your needs and preferences.

Total control by app

Thanks to the iLink app, you can access a wide range of the functionalities of the ceiling light. Choose from a huge selection of colors, explore preset scene modes, set timers and much more. Plus, with the addition of Bluetooth 4.0, you'll have a stable, hassle-free connection. And if you run out of battery or you don't have your cell phone at hand, don't worry, we also include a remote control so you're always in command.

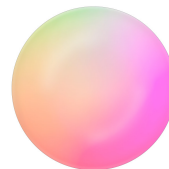

Fits in any space

The Ksix Boreal LED ceiling light adapts to any place and style thanks to its minimalist and round design in white and its dimensions of 38,5 centimeters in diameter and 6 centimeters thick. In addition, thanks to its weight of 640 grams, it is very easy to install. It is IP42-rated, which makes it resistant to dust and water drops. And best of all, its 30.000-hour lifespan ensures that you will enjoy spectacular lightning for a long time.
