DESCRIPTION

The Ksix Halo LED panel is a unique option to illuminate your spaces in a versatile and vibrant way thanks to its RGBIC color technology and its CCT white shades. It is compatible with the iLink app, from which you can control all its functionalities. Discover a new dimension of lightning with the Ksix Halo LED panel and turn your home into a universe of color!

Millions of RGBIC colors

The Ksix Halo LED panel, equipped with RGBIC technology, offers you millions of colors to transform any space into a visual paradise. Unlike conventional RGB technology, which offers a limited range of colors, RGBIC immerses you in an immersive and captivating light show with endless colors and effects. With a luminous flux of 6.500 modular lumens that ensure unparalleled light intensity and brightness.

White shades: cool and warm

You can also enjoy CCT white shades, with a wide range of temperatures; from a cozy 3.000K warm white to a 6.500K refreshing cool white. In addition, you can adjust the brightness to suit your preference, adapting it to every occasion.

App control: endless functionalities

The Ksix Halo LED panel is compatible with the iLink application, from which you can control all its features. From color selection to predefined scene modes and timer settings to create environments programmed to your liking. In addition, its Bluetooth 4.0 connectivity ensures a stable and uninterrupted connection. And if you don't have battery or your cell phone close, no problem! The panel includes a remote control to run the main functionalities.

Designed for any space in your home

The Ksix Halo has a minimalist and round design in white color with measurements of 47 centimeters in diameter and 6 centimeters thick. Thanks to its ultra light weight of 880 grams, you can install it anywhere without complications. Its IP44 protection rating makes it resistant to dust and water splashes, giving you peace of mind and durability. Plus, with a lifespan of 30.000 hours, this panel will be your faithful companion for a long time.
