ATLANTIS internacional, s.l.

Ksix Twilight SmartLED ceiling light,
RGBIC + CCT, 47,5 cm, 7.700 lm, 70 W,
iLink app, White

DESCRIPTION

Thanks to its RGBIC color technology and CCT white shades, the Ksix Twilight SmartLED ceiling light is the perfect choice for those looking to create a colorful and personalized atmosphere in their home. You will be able to control all its functionalities in a simple and intuitive way thanks to the iLink app. Brighten up your life thanks to the Ksix Twilight LED ceiling light!

Infinite combinations of RGBIC colors

The Ksix Twilight LED ceiling light offers millions of colors to create the perfect atmosphere for any occasion thanks to its RGBIC technology. Unlike conventional RGB technology, RGBIC offers infinite color combinations so you can create custom ambiances in the blink of an eye. Its luminous flux of 7.700 modular lumens makes the emitted light shine and illuminate every corner of your home.
Custom white shades

The Twilight ceiling light offers adjustable white shades ranging from a 3.000K warm white to a 6.500K cool white. Plus, with its brightness control functionality, you can adjust the white lightning to suit all your needs and preferences.

Total control in your hands

With the iLink app you can take control of the lightning in a matter of seconds. You can select colors, choose from a wide variety of scene modes, program timers and much more. In addition, thanks to its Bluetooth 4.0 connectivity, it offers a secure and stable connection. And if you don't have your phone at hand or it is out of battery, don't worry, it includes a remote control, so you are always in charge.

Minimalist and elegant square design

Thanks to its minimalist square design in white and its dimension of 47,5 x 47,5 centimeters and 6,2 centimeters thick, the Ksix Twilight ceiling light adapts to any space and style. In addition, it is very easy to install thanks to its weight of 1.350 grams. Its IP42 protection rating makes it resistant to dust and water drops. It offers a lifespan of 30.000 hours, so it will be your source of light for a very long time.
