

GUIDE TO THE PIXY MINI

1. Power button
2. USB A output port
3. Type C output/input port
4. LED Indicators
5. USB-C charging cable

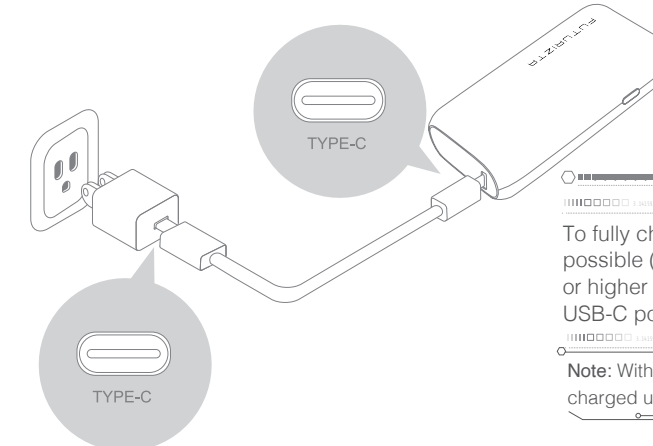

1 CHECKING BATTERY CHARGE

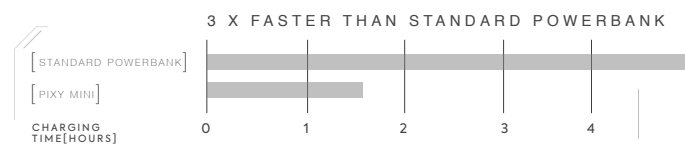

LED indicator lights Indicate the remaining battery charge that the power bank contains. Press the POWER button to check battery status. There are 4 LEDs with each LED representing 25% of charge.

2 CHARGING YOUR PIXY MINI

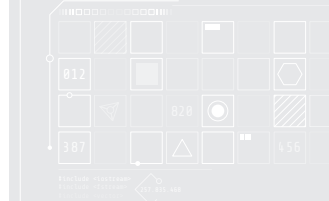

To fully charge up your Pixy Mini at the fastest speed possible (1.5 hours), please use a compatible **18W** or higher PD charger to fast charge Pixy Mini via the USB-C port.

Note: With a normal 2.4A charger, Pixy Mini will be charged up in 2.5 hours.

3 CHARGING YOUR DEVICES

Pixy Mini has both **USB-C** and **USB-A** output and with the compatible cable connected to your device, it automatically triggers the charge.

Dual Output capability allows you to simultaneously charge 2 devices at the same time with a combined max output of 20W.

Low Current Charging Mode
Double click the power button to activate low current charging mode for low-power devices such as wireless earphones, speakers, smartwatches etc.

CONTACT FOR SUPPORT

Futurizta is a Tech Company that innovates gadgets from listening and tending to consumer's needs. We hold on to a core belief that futuristic means to have more out of something simplistic. This symbol, affixed to the product or its packaging, indicates that the product must not be processed as household waste. This product should be correctly disposed of according to your local guidelines for electrical and battery operated products. Correct disposal of the battery will avoid potential harm to the environment and human health. For further information regarding the recycling of this product, please contact your local waste recycling centre.

4 PASS-THROUGH CHARGING

Pass-through charging capability allows you to charge other devices while charging Pixy Mini itself.

Note: Fast-Charging is disabled during pass-through charging to protect the battery and reduce heat. Pass-through charging is ideal for overnight charging to fully charge your device and Pixy Mini simultaneously. To get the fastest charging speed possible, please charge Pixy Mini and your devices separately.

5 DAISY CHAIN

How to Daisy Chain: Connect your charging cable to Pixy Mini's Type-C port, and with its additional USB-A port you can connect it using another cable to an additional Pixy Mini to be charged simultaneously.

Note: Pixy Mini has built-in automatic short circuit and overcharge protection. This will automatically turn your Pixy Mini off when an overcharge occurs. To continue charging, simply press the power button to resume the charge.

6 FEATURES

- 20W Power Delivery (USB-C) :** Fast charge compatible devices from 0-60% in 30 minutes
- QC3.0 (USB-A) :** Fast charge your compatible Android devices from 0-80% in 30 minutes
