

DESCRIPTION

Immerse yourself into the atmosphere of your favorite series and movies thanks to Ksix AmbiGlow LED TV strips. The built-in sensor captures the colors of your TV, and the LED strip emulates and reflects them to create total immersion. Thanks to the Tuya Smart app you can maintain total control of the lighting. Join the AmbiGlow revolution and change the way you watch TV forever.

Total immersion

The AmbiGlow sensor captures the colors of your TV screen and synchronizes them with the LED strip to emulate and display those same colors, creating a unique immersive experience. Immerse yourself in the atmosphere of your favorite series, movies, sports and video games thanks to this revolutionary technology.

For TVs from 55 to 75"

The size of the LED strips is compatible with televisions from 55 to 75 inches. Their installation is very simple, and they are trimmable, which means that, once installed on your TV, you can cut them and get rid of the part of the strips that you have left over. They have a length of 3,5 meters and IP64 protection rating, which makes them resistant to dust and splashes. Plus, with a lifespan of 36.000 hours, the AmbiGlow will be your faithful companion for many years to come.

Millions of colors

The AmbiGlow LED strip incorporates RGB technology, which means it can display an enormous number of colors. Whatever colors appear on your screen, the AmbiGlow will emulate them perfectly. Plus, with a luminous flux of 518 lumens, the strips display exceptional lighting power.

Total control with the Tuya Smart app

You can make use of all the functionalities of the AmbiGlow through the Tuya Smart app. Choose the color you want, discover scene modes and set timers in a matter of seconds. The AmbiGlow has WiFi connection so you can control all its functions and incorporates Bluetooth 4.2 to always ensure a stable connection. In addition, it incorporates an additional remote control so you can control the LED strip when you do not have your cell phone at hand, or you have run out of battery.
